**PART A: Read the text and answer the questions below (40 pts.).**

I would like to tell about my travel to Palma de Mallorca last summer. We had our first problem before we left home! My mum's alarm didn't go off, so we got up late. We wanted to take the underground to the airport, but after we arrived at the station, my dad noticed that he didn't have his passport, so we went back home. After we got Dad's passport, my parents decided to take a taxi, but unfortunately, there was a big football match in the city that day and the traffic was terrible. It took 45 minutes to get to the airport. When we arrived, we ran through the airport, but before we arrived at the gate, we heard a message: 'We are sorry to inform you that the flight to Palma de Mallorca is delayed.' We waited another four hours for the plane!

*Mr. Hill:* Yes I have lots of work these days and I don't sleep much. I don't think it is serious.

*Doctor:* You shouldn't say that. It can be very harmful.
